## Aspen Creek Fire

**Location:** 32 miles southeast of Pinedale, WY  
**Cause:** Lightning  
**Date:** September 20, 2011  
**Size:** 95 Acres

The Aspen Creek Fire is located 32 miles southeast of Pinedale on Muddy Ridge and is burning in heavy dead and down bug killed timber.

Objectives for the fire:

- Safety of fire fighter, aviation, support personnel, and the public is the highest priority at all times for the duration of the incident.
- Allow fire to play its natural role in the ecosystem as a process of ecological change.
- Provide and maintain timely communications and information to the public.
- Protect values at risk from any fire damage.
